Next Generation Sunshine State Standards – Social Studies, Revised June 2014

NEXT GENERATION SUNSHINE STATE STANDARDS FOR SOCIAL STUDIES ADDITION OF FINANCIAL LITERACY STRAND

HISTORY

Next Generation Sunshine State Standards (NGSSS) for Social Studies were approved by the State Board of Education in December 2008. These standards included content aligned with the following strands: American History, Geography, Economics, Civics and Government, World History, and Humanities. Psychology and Sociology strands were adopted in 2013. The addition of a Financial Literacy strand is required by legislation passed in 2013 amending s. 1003.41, F.S.

Standards Revision Process:

National and state standards were considered as required by s. 1003.41, F.S., Required instruction. The National Standards for Financial Literacy, as developed by the Council for Economic Education (CEE), were chosen to be reviewed by a committee of renowned experts, also as required by s. 1003.41, F.S.

A committee of six reviewers with expertise in the area of economics and finance was chosen with attention to level of experience as well as geographic, ethnic and gender diversity. The committee members were asked to review the CEE National Standards for Financial Literacy in November and December 2013 and state whether or not they were appropriate to be added to Florida's NGSSS for Social Studies, comprising the Financial Literacy strand. The committee members felt that the CEE National Standards for Financial Literacy were appropriate to be adopted as part of the Next Generation Sunshine State Standards for Social Studies with just minor adjustments.

An online public comment period was held from January 31 – March 3, 2014, for interested parties to review the proposed standards. A memo was sent to all school district superintendents announcing this public comment period on January 31, 2014. In addition, an email was sent to all district social studies supervisors asking them to pass the information on as appropriate. There were 232 responses to the survey and 102 text based comments. Revisions were made internally to include verbs in each standard that would allow it to be measureable. This version, along with a summary of the comments from the survey, was sent to the original committee members on March 4, 2014. They were asked to review the revision and comment on its appropriateness. The final revision based on their comments is attached.

The proposed standards are specific and measurable. They are organized in the same format as the existing strands of the NGSSS for Social Studies. In addition to the appropriate concepts specific to the content, the standards also address literacy,

mathematics, problem solving, creativity, cross-cultural understanding and 21st century skills. We acknowledge the work of the Council for Economic Education that allows for Florida to adopt existing standards that require students to reach for excellence.

Furthermore, we would like to express our special thanks to those who gave of their time to review and provide input on the draft standards. These people include:

| Standard 1: | Earning Income | |
|-------------------|--|--|
| Benchmark | Benchmark | |
| Code | | |
| SS.4.FL.1.1 | People have many different types of jobs from which to choose. Identify different jobs requiring people to have different skills. Remarks and Examples: Make a list of different types of jobs and describe the different skills associated with each job. | |
| SS.4.FL.1.2 | People earn an income when they are hired by an employer to work at a job. Explain why employers are willing to pay people to do their work. | |
| SS.4.FL.1.3 | Workers are paid for their labor in different ways such as wages, salaries, or commissions. Explain the ways in which workers are paid. Remarks and Examples: Explain how a waitress, a teacher, and a realtor are paid. | |
| SS.4.FL.1.4 | People can earn interest income from letting other people borrow their money. Explain why banks and financial institutions pay people interest when they deposit their money at those institutions. | |
| SS.4.FL.1.5 | People can earn income by renting their property to other people. Identify different types of property (such as apartments, automobiles, or tools) that people own and on which rent is paid. | |
| SS.4.FL.1.6 | Describe ways that people who own a business can earn a profit, which is a source of income. | |
| SS.4.FL.1.7 | Entrepreneurs are people who start new businesses. Entrepreneurs do not know if their new businesses will be successful and earn a profit. Identify ways in which starting a business is risky for entrepreneurs. Remarks and Examples: Read a children's book about an entrepreneur and identify the type of business started, the possible risks of running the business, and what the entrepreneur expected to earn. | |
| SS.4.FL.1.8 | Income earned from working and most other sources of income are taxed. Describe ways that the revenue from these taxes is used to pay for government provided goods and services. Remarks and Examples: Describe examples of government-provided goods and services that are paid for with taxes. | |
| Standard 2: | Buying Goods and Services | |
| Benchmark Code | Benchmark | |
| SS.4.FL.2.1 | Explain that economic wants are desires that can be satisfied by consuming a good, a service, or a leisure activity. Remarks and Examples: Brainstorm a list of wants and then identify examples of goods, services, or leisure activities they can buy to satisfy each want. | |
| SS.4.FL.2.2 | Explain that people make choices about what goods and services they buy because they can't have everything they want. This requires individuals to prioritize their wants. Remarks and Examples: Create a list of goods or services they want given a set budget constraint, rank the goods and services from the most to the least desired, and justify their | |

| | ranking. |
|-------------|---|
| SS.4.FL.2.3 | Identify some of the ways that people spend a portion of their income on goods and |
| | services in order to increase their personal satisfaction or happiness. |
| | Remarks and Examples: Explain why consumers with identical vacation budgets choose |
| | different options when planning a weeklong vacation. |
| SS.4.FL.2.4 | Discuss that whenever people buy something, they incur an opportunity cost. Opportunity |
| | cost is the value of the next best alternative that is given up when a person makes a |
| | choice. |
| | Remarks and Examples: Present an example of a buying choice a person made and identify |
| | the opportunity cost of that choice. |
| SS.4.FL.2.5 | Explain that costs are things that a decision maker gives up; benefits are things that a |
| | decision maker gains. Make an informed decision by comparing the costs and benefits of |
| | spending alternatives. |
| | Remarks and Examples: Compare the costs and benefits of buying a bicycle in two |
| | settings, rural and urban, and for different people including a younger child, a teenager, |
| | and a grandparent. |
| SS.4.FL.2.6 | Predict how people's spending choices are influenced by prices as well as many other |
| | factors, including advertising, the spending choices of others, and peer pressure. |
| | Remarks and Examples: Write stories about how individual spending choices were |
| | informed or influenced by advertising, the spending choices of others, peer pressure, or |
| | the prices of alternative choices. |
| SS.4.FL.2.7 | Explain why shopping with a list can help consumers with their spending choices. |
| 33.4.FL.2.7 | Planning for spending can help people make informed choices. Develop a budget plan for spending, saving, and managing income. |
| | Remarks and Examples: Create a budget for a set amount of allowance income that |

| SS.8.FL.3.1 | Explain that banks and other financial institutions loan funds received from depositors to borrowers and that part of the interest received from these loans is used to pay interest to depositors for the use of their money. Remarks and Examples: Draw and label a diagram showing the role that financial institutions play in channeling funds from savers to borrowers. Conduct research into the interest rate paid on savings and charged for loans by financial institutions in their |
| CC 0 EL 2 2 | community and create a classroom bulletin board summarizing their findings. |
| SS.8.FL.3.2 | Explain that, for the saver, an interest rate is the price a financial institution pays for using a saver's money and is normally expressed as an annual percentage of the amount saved. Remarks and Examples: Define an interest rate as the price paid for using someone else's money, expressed as a percentage of the amount saved. |
| SS.8.FL.3.3 | Discuss that interest rates paid on savings and charged on loans, like all prices, are determined in a market. |
| | Remarks and Examples: Explain why banks that experience an increase in the number of people who want loans may decide to pay higher interest rates on deposits. |
| SS.8.FL.3.4 | Explain that, when interest rates increase, people earn more on their savings and their savings grow more quickly. |
| | Remarks and Examples: Calculate the total amount of interest earned on two certificates of deposit—one with a higher rate of interest than the other—and explain how the |
| | certificate of deposit with the higher interest rate can help a saver reach his or her savings goal faster. |
| SS.8.FL.3.5 | Identify principal as the initial amount of money upon which interest is paid. |
| | Remarks and Examples: Differentiate between principal and interest. |
| SS.8.FL.3.6 | Identify the value of a person's savings in the future as determined by the amount saved and the interest rate. Explain why the earlier people begin to save, the more savings they will be able to accumulate, all other things equal, as a result of the power of compound interest. |
| | Remarks and Examples: Use the Rule of 72 to determine the number of years it will take for their savings to double in value. Using a formula for compound interest, calculate how much two different savers, one who starts to save at age 21 and one who starts to save at age 35, will have at retirement. |
| SS.8.FL.3.7 | Discuss the different reasons that people save money, including large purchases (such as higher education, autos, and homes), retirement, and unexpected events. Discuss how people's tastes and preferences influence their choice of how much to save and for what to save. |
| | Remarks and Examples: Write a short story comparing the savings choices of a young college graduate to those of a married couple who recently celebrated their 40th birthdays and who have two children. |
| SS.8.FL.3.8 | Explain that, to assure savers that their deposits are safe from bank failures, federal |

| Standard 6: Social Change/Examine the changing nature of society. | |
|---|---|
| BENCHMARK CODE | BENCHMARK |
| SS.912.S.6.1 | Describe how and why societies change over time. |
| SS.912.S.6.10 | Cite examples of the use of technology in social research. |
| SS.912.S.6.11 | Evaluate a current issue that has resulted from scientific discoveries and/or technological innovations. |
| SS.912.S.6.2 | Examine various social influences that can lead to immediate and long-term changes. |
| SS.912.S.6.3 | Describe how collective behavior can influence and change society. |
| SS.912.S.6.4 | Examine how technological innovations and scientific discoveries have influenced major social institutions. |
| SS.912.S.6.5 | Discuss how social interactions and culture could be affected in the future due to innovations in science and technological change. |
| SS.912.S.6.6 | Describe how the role of the mass media has changed over time and project what changes might occur in the future. |
| SS.912.S.6.7 | Distinguish major differences between social movements and collective behavior with examples from history and the contemporary world. |
| SS.912.S.6.8 | Investigate the consequences in society as result of changes. |
| SS.912.S.6.9 | Trace the development of the use of a specific type of technology in the community. |

| Standard 7: Social Problems/Analyze a range of social problems in today's world. | |
|--|---|
| BENCHMARK CODE | BENCHMARK |
| SS.912.S.7.1 | Identify characteristics of a "social" problem, as opposed to an "individual" problem. |
| SS.912.S.7.2 | Describe how social problems have changed over time. |
| SS.912.S.7.3 | Explain how patterns of behavior are found with certain social problems. |
| SS.912.S.7.4 | Discuss the implications of social problems for society. |
| SS.912.S.7.5 | Examine how individual and group responses are often associated with social problems. |
| SS.912.S.7.6 | Evaluate possible solutions to resolving social problems and the consequences that might result from those solutions. |

Standard 8: Individual and Community/Examine the role of the individual as a member of the community; explore both individual and collective behavior.

| BENCHMARK CODE | BENCHMARK |
|----------------|--|
| SS.912.S.8.1 | Describe traditions, roles, and expectations necessary for a community to continue. |
| SS.912.S.8.2 | Describe how collective behavior (working in groups) can influence and change society. Use historical and contemporary examples to define collective behavior. |

| SS.912.S.8.7 | Define propaganda and discuss the methods of propaganda and discuss the methods of propaganda used to influence social behavior. |
| SS.912.S.8.8 | Discuss both the benefits and social costs of collective behavior in society. |
| SS.912.S.8.9 | Investigate ways that incorrect communications, such as rumors or gossip, can influence group behavior. |

PROPOSED NEXT GENERATION SUNSHINE STATE STANDARDS FOR SOCIAL STUDIES FINANCIAL LITERACY STRAND

Grades 9-12:

| Standard 1: Earning Income | | |
|----------------------------|---|--|
| Benchmark | Benchmark | |
| Code | | |
| SS.912.FL.1.1 | Discuss that people choose jobs or careers for which they are qualified based on non-income factors, such as job satisfaction, independence, risk, family, or location. Remarks and Examples: Identify non-income factors that influence career or job choice by interviewing three individuals who work at different jobs. | |
| SS.912.FL.1.2 | Explain that people vary in their willingness to obtain more education or training because these decisions involve incurring immediate costs to obtain possible future benefits. Describe how discounting the future benefits of education and training may lead some people to pass up potentially high rates of return that more education and training may offer. Remarks and Examples: Explain how people's willingness to wait or plan for the future affects their decision to get more education or job training in a dynamic and changing labor market. Speculate how a high school student might assess the future benefits of going to college, and describe how that assessment will affect the student's decision to attend | |
| SS.912.FL.1.3 | college. Evaluate ways people can make more informed education, job, or career decisions by evaluating the benefits and costs of different choices. Remarks and Examples: Compare the benefits and costs of a college education to those of a technical school. Compare the unemployment rates of workers with different levels of education. | |
| SS.912.FL.1.4 | Analyze the reasons why the wage or salary paid to workers in jobs is usually determined by the labor market and that businesses are generally willing to pay more productive workers higher wages or salaries than less productive workers. Remarks and Examples: Explain why wages or salaries vary among workers in different types of jobs and among workers in the same jobs. Discuss why the productivity of workers is important to businesses. | |
| SS.912.FL.1.5 | Discuss reasons why changes in economic conditions or the labor market can cause changes in a worker's income or may cause unemployment. Remarks and Examples: Explain how an increase in the demand for mobile applications might impact the wages paid to software developers. Explain the effects of a recession on the unemployment rate. | |
| SS.912.FL.1.6 | Explain that taxes are paid to federal, state, and local governments to fund government goods and services and transfer payments from government to individuals and that the major types of taxes are income taxes, payroll (Social Security) taxes, property taxes, and sales taxes. Remarks and Examples: Calculate the amount of taxes a person is likely to pay when given information or data about the person's sources of income and amount of spending. Identify which level of government receives the tax revenue for a particular tax and describe what is done with the tax revenue. | |

| SS.912.FL.1.7 | Discuss how people's sources of income, amount of income, as well as the amount and type of spending affect the types and amounts of taxes paid. Remarks and Examples: Investigate the tax rates on different sources of income and on different types of goods that are purchased. |
|-------------------|--|
| Standard 2: Bu | ying Goods and Services |
| Benchmark Code | Benchmark |
| SS.912.FL.2.1 | Compare consumer decisions as they are influenced by the price of a good or service, the price of alternatives, and the consumer's income as well as his or her preferences. Remarks and Examples: Write scenarios explaining how an individual's decision to buy athletic shoes may have been influenced by various factors. |
| SS.912.FL.2.2 | Analyze situations in which when people consume goods and services, their consumption can have positive and negative effects on others. Remarks and Examples: Explain the positive or negative impacts of an activity such as smoking cigarettes or attending school, etc., might have on other individuals and the community. |
| SS.912.FL.2.3 | Discuss that when buying a good, consumers may consider various aspects of the product including the product's features. Explain why for goods that last for a longer period of time, the consumer should consider the product's durability and maintenance costs. Remarks and Examples: Explain the factors that a consumer who is buying an automobile should consider before making a choice. |
| SS.912.FL.2.4 | Describe ways that consumers may be influenced by how the price of a good is expressed. Remarks and Examples: Write a paragraph explaining why a store might advertise the price of a flat screen TV expressed as an amount per day or week rather than the actual full price. List different ways retailers use to express the prices of their products. |
| SS.912.FL.2.5 | Discuss ways people incur costs and realize benefits when searching for information related to their purchases of goods and services and describe how the amount of information people should gather depends on the benefits and costs of the information. Remarks and Examples: Write a newspaper column, "Tips for Consumers," explaining why searching for information may be more important when purchasing expensive, durable goods and services than for inexpensive and nondurable products. Include an explanation of how impulse buying can be avoided by sleeping on a decision before making a big purchase. |
| SS.912.FL.2.6 | Explain that people may choose to donate money to charitable organizations and other not-for-profits because they gain satisfaction from donating. Remarks and Examples: Brainstorm a list of charitable organizations that are operating in the students' community. For each organization, list a possible reason that a donor might want to give to that charitable organization. |
| SS.912.FL.2.7 | Examine governments establishing laws and institutions to provide consumers with information about goods or services being purchased and to protect consumers from fraud. Remarks and Examples: Draft a complaint letter to an appropriate firm or agency about a problem the consumer has encountered with a purchase. |

| Standard 3: Saving | | |
|--------------------------|---|--|
| Benchmark | Benchmark | |
| Code | | |
| SS.912.FL.3.1 | Discuss the reasons why some people have a tendency to be impatient and choose immediate spending over saving for the future. Remarks and Examples: Identify instances in their lives where they decided to buy | |
| | something immediately and then wished they had instead saved the money for future purchases. | |
| SS.912.FL.3.2 | Examine the ideas that inflation reduces the value of money, including savings, that the real interest rate expresses the rate of return on savings, taking into account the effect of inflation and that the real interest rate is calculated as the nominal interest rate minus the rate of inflation. Remarks and Examples: Explain why savers expect a higher nominal interest rate when inflation is expected to be high. | |
| SS.912.FL.3.3 | Compare the difference between the nominal interest rate which tells savers how the dollar value of their savings or investments will grow, and the real interest rate which tells savers how the purchasing power of their savings or investments will grow. Remarks and Examples: Given the nominal interest rate and the rate of inflation over the course of one year, explain what will happen to the purchasing power of savings. | |
| SS.912.FL.3.4 | Describe ways that money received (or paid) in the future can be compared to money held today by discounting the future value based on the rate of interest. Remarks and Examples: Use spreadsheet software to calculate the amount a 10-year-old would need to save today in order to pay for one year of college tuition eight years from now. | |
| SS.912.FL.3.5 | Explain ways that government agencies supervise and regulate financial institutions to help protect the safety, soundness, and legal compliance of the nation's banking and financial system. Remarks and Examples: Explain the role that government agencies charged with regulating financial institutions play in helping to protect the safety, soundness, and legal compliance of the nation's banking system. These agencies include the Federal Reserve System, the Office of the Comptroller of the Currency, the Consumer Financial Protection Bureau, the FDIC, and state banking departments. | |
| SS.912.FL.3.6 | Describe government policies that create incentives and disincentives for people to save. Remarks and Examples: Explain why traditional IRAs (individual retirement accounts), Roth IRAs, and educational savings accounts provide incentives for people to save. | |
| SS.912.FL.3.7 | Explain how employer benefit programs create incentives and disincentives to save and how an employee's decision to save can depend on how the alternatives are presented by the employer. Remarks and Examples: Explain why matches of retirement savings by employers substantially change the incentives for employees to save. Explain why having employees "opt out" of savings programs results in a higher level of saving than having them "opt in." | |
| Standard 4: Using Credit | | |
| Benchmark Code | Benchmark | |
| SS.912.FL.4.1 | Discuss ways that consumers can compare the cost of credit by using the annual | |

| | percentage rate (APR), initial fees charged, and fees charged for late payment or missed |
|---------------|---|
| | payments. |
| | Remarks and Examples: Use the APR, initial fees, late fees, nonpayment fees, and |
| | other relevant information to compare the cost of credit from various sources for the |
| | purchase of a product. |
| SS.912.FL.4.2 | Discuss that banks and financial institutions sometimes compete by offering credit at |
| | low introductory rates, which increase after a set period of time or when the borrower |
| | misses a payment or makes a late payment. |
| | Remarks and Examples: Explain why a bank may offer low-rate introductory credit |
| | offers. |
| SS.912.FL.4.3 | Explain that loans can be unsecured or secured with collateral, that collateral is a piece |
| | of property that can be sold by the lender to recover all or part of a loan if the borrower |
| | fails to repay. Explain why secured loans are viewed as having less risk and why lenders |
| SS.912.FL.4.4 | charge a lower interest rate than they charge for unsecured loans. Describe why people often make a cash payment to the seller of a good—called a down |
| 33.912.FL.4.4 | payment—in order to reduce the amount they need to borrow. Describe why lenders |
| | may consider loans made with a down payment to have less risk because the down |
| | payment gives the borrower some equity or ownership right away and why these loans |
| | may carry a lower interest rate. |
| | Remarks and Examples: Explain how a down payment reduces the total amount |
| | financed and why this reduces the monthly payment and/or the length of the loan. |
| | Explain why a borrower who has made a down payment has an incentive to repay a |
| | loan or make payments on time. |
| SS.912.FL.4.5 | Explain that lenders make credit decisions based in part on consumer payment history. |
| | Credit bureaus record borrowers' credit and payment histories and provide that |
| | information to lenders in credit reports. |
| | Remarks and Examples: List factors from an individual's credit history or credit |
| | application that may cause a lender to deny credit. |
| SS.912.FL.4.6 | Explain what credit bureaus do. Discuss that lenders can pay to receive a borrower's credit score from a credit bureau |
| 33.912.FL.4.0 | and that a credit score is a number based on information in a credit report and assesses |
| | a person's credit risk. |
| | Remarks and Examples: Explain the concept of a credit score and what it indicates |
| | about a borrower. Explain why certain factors, such as having many credit cards with |
| | large lines of credit and large balances, might hurt a credit score. |
| SS.912.FL.4.7 | Describe that, in addition to assessing a person's credit risk, credit reports and scores |
| | may be requested and used by employers in hiring decisions, landlords in deciding |
| | whether to rent apartments, and insurance companies in charging premiums. |
| | Remarks and Examples: Provide two examples of how having a good credit score can |
| | benefit a person financially. Explain why employers find it useful to hire someone with |
| | a better credit score. |
| SS.912.FL.4.8 | Examine the fact that failure to repay a loan has significant consequences for borrowers |
| | such as negative entries on their credit report, repossession of property (collateral), |
| | garnishment of wages, and the inability to obtain loans in the future. |
| | Remarks and Examples: Write a scenario about the future opportunities a person can |
| SS.912.FL.4.9 | lose by failing to repay loans as agreed. Explain that consumers who have difficulty repaying debt can seek assistance through |
| 33.912.FL.4.9 | Explain that consumers who have unficulty repaying dept can seek assistance through |

| | credit counseling services and by negotiating directly with creditors. |
|---|--|
| | Remarks and Examples: Identify the costs and benefits associated with using different |
| | credit counseling services. |
| SS.912.FL.4.10 | Analyze the fact that, in extreme cases, bankruptcy may be an option for consumers |
| | who are unable to repay debt, and although bankruptcy provides some benefits, filing |
| | for bankruptcy also entails considerable costs, including having notice of the |
| | bankruptcy appear on a consumer's credit report for up to 10 years. |
| | Remarks and Examples: Investigate the costs of bankruptcy by examining the |
| CC 042 FL 4 44 | bankruptcy laws in Florida. |
| SS.912.FL.4.11 | Explain that people often apply for a mortgage to purchase a home and identify a |
| | mortgage is a type of loan that is secured by real estate property as collateral. |
| | Remarks and Examples: Predict what might happen should a homeowner fail to make |
| CC 042 FL 4 42 | his or her mortgage payments. |
| SS.912.FL.4.12 | Discuss that consumers who use credit should be aware of laws that are in place to |
| | protect them and that these include requirements to provide full disclosure of credit |
| | terms such as APR and fees, as well as protection against discrimination and abusive |
| | marketing or collection practices. Remarks and Examples: Explain why it is important that consumers have full |
| | information about loans. Explain the information on a credit disclosure statement. |
| SS.912.FL.4.13 | Explain that consumers are entitled to a free copy of their credit report annually so that |
| 33.912.FL.4.13 | they can verify that no errors were made that might increase their cost of credit. |
| | Remarks and Examples: Explain why it is important to check the accuracy of the |
| | information recorded on a credit report and know what steps to take to correct errors |
| | on credit reports. |

| SS.912.FL.5.6 | Describe how diversifying investments in different types of financial assets can lower |
| 33.312.1 2.3.0 | investment risk. |
| | Remarks and Examples: Compare the risk faced by two investors, both of whom own |
| | two businesses on a beach. One investor owns a suntan lotion business and a rain |
| | umbrella business. |
| | The other investor owns two suntan lotion businesses. Explain why a financial advisor |
| | might encourage a client to include stocks, bonds, and real estate assets in his or her |

| SS.912.FL.5.7 | Describe how financial markets adjust to new financial news and that prices in those |
| | markets reflect what is known about those financial assets. |
| | Remarks and Examples: Explain how prices of financial investments can adjust when |
| | given specific news about a company's or industry's future profitability. |
| SS.912.FL.5.8 | Discuss ways that the prices of financial assets are affected by interest rates and explain |
| | that the prices of financial assets are also affected by changes in domestic and |
| | international economic conditions, monetary policy, and fiscal policy. |
| | Remarks and Examples: Give an example of a change in interest rates affecting the |
| | current value of a financial asset that pays returns in the future. Explain why the |
| | current value increases when interest rates fall. Explain how a change in economic |
| | growth might change the value of a stock held by an investor. |
| SS.912.FL.5.9 | Examine why investors should be aware of tendencies that people have that may result |
| | in poor choices, which may include avoiding selling assets at a loss because they weigh |
| | losses more than they weigh gains and investing in financial assets with which they are |
| | familiar, such as their own employer's stock or domestic rather than international |
| | stocks. Remarks and Examples: Explain why investors may sell stocks that have gained in |
| | value, but hold ones that have lost value. Explain why this may not make sense. |
| | Identify an example of why an investor may have a bias toward familiar investments |
| | and why this may or may not be a rational decision. |
| SS.912.FL.5.10 | Explain that people vary in their willingness to take risks because the willingness to take |
| 25.512.1 2.5.10 | risks depends on factors such as personality, income, and family situation. |
| | Remarks and Examples: Explain how the portfolio of a retiree might differ from that of |
| | a young, single person. |
| SS.912.FL.5.11 | Describe why an economic role for a government may exist if individuals do not have |
| | complete information about the nature of alternative investments or access to |
| | competitive financial markets. |
| | Remarks and Examples: Explain why it is important for individuals to have accurate |
| | information about a company's sales and profits when investing in that company. |
| SS.912.FL.5.12 | Compare the Securities and Exchange Commission (SEC), the Federal Reserve, and |
| | other government agencies that regulate financial markets. |

| Benchmark | Benchmark |
| Code | |
| SS.912.FL.6.1 | Describe how individuals vary with respect to their willingness to accept risk and why most people are willing to pay a small cost now if it means they can avoid a possible larger loss later. Remarks and Examples: Discuss whether or not a premium paid to insure against an accident that never happens is wasted. |
| SS.912.FL.6.2 | Analyze how judgment regarding risky events is subject to errors because people tend to overestimate the probability of infrequent events, often because they've heard of or seen a recent example. Remarks and Examples: Discuss how an extended warranty on a consumer product is like insurance. Evaluate the cost-effectiveness of extended warranties on three consumer products: a new automobile, a smart phone, and a dishwasher, considering the likelihood that the product will fail, the cost of replacing the item, and the price of the warranty. |
| SS.912.FL.6.3 | Describe why people choose different amounts of insurance coverage based on their willingness to accept risk, as well as their occupation, lifestyle, age, financial profile, and the price of insurance. Remarks and Examples: Given hypothetical profiles for three types of individuals who differ with respect to occupation, age, lifestyle, marital status, and financial profile, assess the types and levels of personal financial risk faced by each and make recommendations for appropriate insurance. |
| SS.912.FL.6.4 | Explain that people may be required by governments or by certain types of contracts (e.g., home mortgages) to purchase some types of insurance. Remarks and Examples: Explain why homeowners insurance is required by a lender when a homeowner takes out a mortgage. Investigate Florida's regulations regarding the amount of auto insurance that drivers are required to purchase as well as federal health insurance regulations. |
| SS.912.FL.6.5 | Describe how an insurance contract can increase the probability or size of a potential loss because having the insurance results in the person taking more risks, and that policy features such as deductibles and copayments are cost-sharing features that encourage the policyholder to take steps to reduce the potential size of a loss (claim). Remarks and Examples: Given an accident scenario, calculate the amount that would be paid on an insurance claim after applying exclusions and deductibles. |
| SS.912.FL.6.6 | Explain that people can lower insurance premiums by behaving in ways that show they pose a lower risk. Remarks and Examples: Explain why taking a safe-driving course can lower an auto insurance premium and why not smoking can lower the health insurance premium. |
| SS.912.FL.6.7 | Compare the purposes of various types of insurance, including that health insurance provides for funds to pay for health care in the event of illness and may also pay for the cost of preventative care; disability insurance is income insurance that provides funds to replace income lost while an individual is ill or injured and unable to work; property and casualty insurance pays for damage or loss to the insured's property; life insurance benefits are paid to the insured's beneficiaries in the event of the policyholder's death. Remarks and Examples: Compare the coverage and costs of hypothetical plans for a set of scenarios for various types of insurance. |

| SS.912.FL.6.8 | Discuss the fact that, in addition to privately purchased insurance, some government benefit programs provide a social safety net to protect individuals from economic hardship created by unexpected events. |
|----------------|---|
| | Remarks and Examples: Describe examples of government transfer programs that |
| | compensate for unexpected losses, including Social Security Disability benefits, Medicare, Medicaid, unemployment insurance, and workers' compensation. |
| SS.912.FL.6.9 | Explain that loss of assets, wealth, and future opportunities can occur if an individual's personal information is obtained by others through identity theft and then used fraudulently, and that by managing their personal information and choosing the environment in which it is revealed, individuals can accept, reduce, and insure against the risk of loss due to identity theft. Remarks and Examples: Describe problems that can occur when an individual is a victim of identity theft. Give specific examples of how online transactions, online banking, email scams, and telemarketing calls can make consumers vulnerable to identity theft. Describe the conditions under which individuals should and should not disclose their Social Security number, account numbers, or other sensitive personal information. |
| SS.912.FL.6.10 | Compare federal and state regulations that provide some remedies and assistance for victims of identity theft. |
| | Remarks and Examples: Recommend actions a victim of identity theft should take to limit losses and restore personal security. |
